

your **prime choice** for ergonomics services

Do you want to *save* money, *reduce* turnover and *improve* the health, productivity and morale of your employees?

Ergoprime can help.

Ergoprime is an ergonomics consulting company specializing in office and industrial ergonomics. We are dedicated to improving the health, morale and productivity of your employees while reducing the costs of workplace injuries.

We offer a full range of services that can help you:

- Assess and resolve ergonomic issues
- Educate employees in ergonomic principles
- Implement an ergonomics program

Each of our consultants hold a Masters degree in ergonomics. They have accumulated many years of experience in high technology, electronic assembly, automotive, postal, public sectors, and office environments.

ergoprime's **customized** solutions that work

assessments

Let Ergoprime's professional ergonomists provide you with customized, cost-effective consulting. We create a prioritized action plan for assessment, implementation, education and follow-up.

- Office and industrial ergonomics
- Return to work accommodations
- Materials handling
- Workplace risk factor assessments
- Physical demands analysis
- Furniture & equipment selection

education

Our experienced trainers provide hands-on instruction in practical ergonomic principles, enabling participants to optimize their work environment.

- Office and industrial ergonomics
- Materials handling
- Ergonomics team workshops
- Self-help material

Courses can be *customized* to your workplace.

corporate program management

Ergonomics is a core component of a proactive health and safety program. Ergoprime can help you to implement a new program or enhance your existing program.

We work with you to develop the right ergonomic initiatives for your needs and help you manage them for success. We will:

- Assess needs and audit programs
- Develop policies and standards
- Train managers and staff
- Advise on facility design
- Measure results
